# **SAFETY DATA SHEET**

LOW TEMP SANI

Section 1. Identi	fication
Product identifier	: LOW TEMP SANI
Product code	: 17-08305
Other means of identification	: Not available.
Product type	: Liquid.
Relevant identified uses o	f the substance or mixture and uses advised against
Industrial applications: San	itizer.
Only use this product as dir	rected. Read label before using.
Supplier's details	: Alpine Specialty Chemical Ltd. 9 City View drive, Etobicoke, Ontario M9W 5A5
Emergency telephone number (with hours of operation)	: 1-800-361-7691 (8am to 5pm Monday to Thursday) (8am to 4pm Friday)
Section 2. Hazar	d identification
Classification of the substance or mixture	: SKIN IRRITATION - Category 2 EYE IRRITATION - Category 2B
GHS label elements	
Hazard pictograms	
Signal word	: Warning
Hazard statements	: Causes skin and eye irritation.
Precautionary statement	-
Prevention	<ul> <li>Wear protective gloves: &lt; 1 hour (breakthrough time): Chemical-resistant, impervious gloves. Wash thoroughly after handling.</li> </ul>
Response	: Take off contaminated clothing and wash it before reuse. IF ON SKIN: Wash with plenty of water. If skin irritation occurs: Get medical advice or attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention.
Storage	: Not applicable.
Disposal	: Not applicable.

# Section 3. Composition/information on ingredients

#### Substance/mixture

# Other means of identification

- : Mixture
- : Not available.

Ingredient name	% (w/w)	CAS number
Sodium hypochlorite 12%	5 - 10	7681-52-9

Ranges if listed above for hazardous ingredient(s) are prescribed ranges. The actual concentration(s) or actual concentration range(s) are being withheld as a trade secret.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

### Section 4. First-aid measures

Description of necess	sary first aid measures
Eye contact	: In case of contact with eyes, flush with fresh water. Check for and remove any contact lenses. Continue rinsing. If irritation persists, get medical attention.
Inhalation	: Move victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if adverse health effects persist or are severe. Maintain an open airway.
Skin contact	: In case of irritation, rinse with water. Get medical attention if irritation persist.
Ingestion	: Rinse mouth with water. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

#### Most important symptoms/effects, acute and delayed

Potential acute health	<u>effects</u>
Eye contact	: May cause eye irritation.
Inhalation	: No known significant effects or critical hazards.
Skin contact	: May cause skin irritation.
Ingestion	: No known significant effects or critical hazards.
Over-exposure signs/s	symptoms
Eye contact	: Adverse symptoms may include the following: pain or irritation watering redness
Inhalation	: No specific symptoms under normal use conditions.
Skin contact	: Adverse symptoms may include the following: irritation redness
Ingestion	: No specific symptoms under normal use conditions.
Indication of immediate	e medical attention and special treatment needed, if necessary
Notes to physician	<ul> <li>Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.</li> </ul>

- **Specific treatments** : No specific treatment.
- **Protection of first-aiders** : No action should be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

#### See toxicological information (Section 11)

2/10

# Section 5. Fire-fighting measures

Extinguishing media	
Suitable extinguishing media	: Use an extinguishing agent suitable for the surrounding fire.
Unsuitable extinguishing media	: None known.
Specific hazards arising from the chemical	: In a fire or if heated, a pressure increase will occur and the container may burst.
Hazardous thermal decomposition products	: Decomposition products may include the following materials: halogenated compounds metal oxide/oxides
Special protective actions for fire-fighters	: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action should be taken involving any personal risk or without suitable training.
Special protective equipment for fire-fighters	<ul> <li>Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.</li> </ul>

# Section 6. Accidental release measures

Personal precautions, protect	ctiv	e equipment and emergency procedures
For non-emergency personnel	:	No action should be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
For emergency responders	:	If specialized clothing is required to deal with the spillage, take note of any information on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
Eye/face protection	:	Continued or intense exposures might required to wear safety glasses. It is minimally suggested to wear safety glasses while using or handling this product.
Hand protection	:	It is suggested to wear chemical-reisitant gloves while using or handling this product.
Body protection	:	No special protective clothing is required.
Other skin protection	:	Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
<b>Respiratory protection</b>	:	No specific protective equipment required under normal use conditions.
Environmental precautions		Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
Methods and materials for co	onta	<u>ainment and cleaning up</u>
Small spill	u n	Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry naterial and place in an appropriate waste disposal container. Dispose of via a icensed waste disposal contractor.
Large spill	U V V Id C	Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, remiculite or diatomaceous earth and place in container for disposal according to bocal regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section

Date of issue/Date of revision

# Section 6. Accidental release measures

13 for waste disposal.

# Section 7. Handling and storage

Precautions for safe handling		
Protective measures	:	Put on appropriate personal protective equipment (see Section 8). Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Keep away from acids. Empty containers retain product residue and can be hazardous. Do not reuse container.
Advice on general occupational hygiene	:	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See Section 8 for additional information on hygiene measures.
Conditions for safe storage, including any incompatibilities	:	Store in accordance with local regulations. Separate from acids. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. Keep out of reach of children. Store away from incompatible materials;
		Reactive or incompatible with acids.

# Section 8. Exposure controls/personal protection

#### Control parameters

**Occupational exposure limits** 

Ingredient name			Exposure limits		
Sodium hypochlorite 12%			OARS WEEL (United States, 4/2022). STEL: 2 mg/m <sup>3</sup> 15 minutes.		
Appropriate engineering controls	:	Good general ventilation should be su contaminants that could arise from the	ufficient to control worker exposure to airborne e use if this product.		
<b>Environmental exposure</b> <b>controls</b> : Emissions from ventilation or work p they comply with the requirements of			ocess equipment should be checked to ensure environmental protection legislation. In some neering modifications to the process e emissions to acceptable levels.		
ndividual protection meas	<u>ures</u>				
Hygiene measures	:	eating, smoking and using the lavator	oughly after handling chemical products, befor y and at the end of the working period. ed to remove potentially contaminated clothing eusing.		
Eye/face protection	:	Continued or intense exposures migh minimally suggested to wear safety gl	t required to wear safety glasses. It is lasses while using or handling this product.		
Skin protection					
Hand protection	:	It is suggested to wear chemical-reisit	tant gloves while using or handling this produc		
Body protection	- :	No special protective clothing is require	red.		
Other skin protection	:		nal skin protection measures should be		
		approved by a specialist before handl	formed and the risks involved and should be ing this product.		

# Section 9. Physical and chemical properties

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

<u>Appearance</u>	
Physical state	: Liquid. [Transparent liquid]
Color	: Yellow. [Light]
Odor	: Chlorine
Odor threshold	: Not available.
рН	: 13
Melting point/freezing point	: Not available.
Boiling point, initial boiling point, and boiling range	: Not available.
Flash point	: [Product does not sustain combustion.]
Evaporation rate	: Not available.
Flammability	: Not available.
Lower and upper explosion limit/flammability limit	: Not available.
Vapor pressure	: Vapor Pressure at 20°C

Vapor pressure			Vapor Pressure at 20°C			Vapor pressure at 50°C		
		Ingredient name	mm Hg	kPa	Method	mm Hg	kPa	Method
		water	17.5	2.3				
		sodium hypochlorite, solution	17.5	2.3				
Relative vapor density	:	Not available.			•			
Relative density	:	1.095						
Solubility	:	Not available.						
Solubility in water	:	Not available.						
Partition coefficient: n- octanol/water	:	Not applicable.						
Auto-ignition temperature	:	Not available.						
Decomposition temperature	:	Not available.						
Viscosity	:	Not available.						
Flow time (ISO 2431)	:	Not available.						
Particle characteristics								
Median particle size	:	Not applicable.						

# Section 10. Stability and reactivity

Reactivity	: No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	: The product is stable.
Possibility of hazardous reactions	: May cause an exothermic reaction in presence of acids.
Conditions to avoid	: No specific data.
Incompatible materials	: Reactive or incompatible with acids.
Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Date of issue/Date of revision

# Section 11. Toxicological information

#### Information on toxicological effects

#### Acute toxicity

Product/ingredient name	Result	Species	Dose	Exposure
Sodium hypochlorite 12%	LC50 Inhalation Gas.	Rat	>10500 mg/m³	1 hours
	LD50 Oral	Rat	8910 mg/kg	-

#### Irritation/Corrosion

Product/ingredient name	Result	Species	Score	Exposure	Observation
Sodium hypochlorite 12%	Eyes - Mild irritant Eyes - Moderate irritant	Rabbit Rabbit		1.31 mg 10 mg	-

#### **Sensitization**

Not available.

#### **Mutagenicity**

Not available.

#### **Carcinogenicity**

Not available.

#### **Reproductive toxicity**

Not available.

#### **Teratogenicity**

Not available.

#### Specific target organ toxicity (single exposure)

Product/ingredient name		Route of exposure	Target organs
Sodium hypochlorite 12%	Category 3	-	Respiratory tract irritation

#### Specific target organ toxicity (repeated exposure)

Not available.

#### **Aspiration hazard**

Not available.

Information on the likely routes of exposure	:	Routes of entry anticipated: Oral, Dermal, Inhalation, Eyes.
Potential acute health effects	2	
Eye contact	:	May cause eye irritation.
Inhalation	:	No known significant effects or critical hazards.
Skin contact	:	May cause skin irritation.
Ingestion	1	No known significant effects or critical hazards.
Symptoms related to the phy Eye contact		cal, chemical and toxicological characteristics Adverse symptoms may include the following: pain or irritation watering redness
Inhalation	1	No specific symptoms under normal use conditions.
Skin contact	:	Adverse symptoms may include the following: irritation redness
Ingestion	:	No specific symptoms under normal use conditions.
Date of issue/Date of revision		: 2023-08-21 Date of previous issue : No previous validation Version : 0.01

# Section 11. Toxicological information

#### Delayed and immediate effects and also chronic effects from short and long term exposure

<u>Short term exposure</u>	
Potential immediate effects	: Not available.
Potential delayed effects	: Not available.
Long term exposure	
Potential immediate effects	: Not available.
Potential delayed effects	: Not available.
Potential chronic health effe	<u>cts</u>
Not available.	
General	: No known significant effects or critical hazards.
Carcinogenicity	: No known significant effects or critical hazards.
Mutagenicity	: No known significant effects or critical hazards.
Reproductive toxicity	: No known significant effects or critical hazards.

#### Numerical measures of toxicity

#### Acute toxicity estimates

Product/ingredient name	Oral (mg/ kg)	Dermal (mg/kg)		(vapors) (mg/l)	Inhalation (dusts and mists) (mg/l)
Sodium hypochlorite 12%	8910	N/A	N/A	N/A	N/A

# Section 12. Ecological information

#### **Toxicity**

Product/ingredient name	Result	Species	Exposure	
Sodium hypochlorite 12%	Acute EC50 0.67 mg/l Marine water	Algae - <i>Phaeodactylum</i> <i>tricornutum</i> - Exponential growth phase	96 hours	
	Acute EC50 0.01 mg/l Fresh water	Daphnia - <i>Daphnia magna</i> - Embryo	48 hours	
	Acute LC50 56.4 mg/l Marine water	Crustaceans - Palaemonetes pugio	48 hours	
	Acute LC50 32 µg/l Marine water	Fish - Oncorhynchus kisutch - Juvenile (Fledgling, Hatchling, Weanling)	96 hours	
	Chronic NOEC 0.5 mg/l Marine water	Algae - <i>Isochrysis galbana -</i> Exponential growth phase	96 hours	
	Chronic NOEC 0.1 ppm Fresh water	Fish - Cyprinus carpio - Young	30 days	

#### Persistence and degradability

Not available.

#### **Bioaccumulative potential**

Not available.

#### **Mobility in soil**

Date of issue/Date of revision

# Section 12. Ecological information

Soil/water partition coefficient (Koc)

: Not available.

Other adverse effects : No known significant effects or critical hazards.

### Section 13. Disposal considerations

Disposal methods : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

### Section 14. Transport information

	TDG Classification	DOT Classification	IMDG	ΙΑΤΑ
UN number	UN1791	UN1791	UN1791	UN1791
UN proper shipping name	(sodium hypochlorite, solution)	Not available.	Not available.	Not available.
Transport hazard class(es)	8	8 CORRUST	8	8
Packing group	111	111	111	Ш
Environmental hazards	No.	No.	Yes.	Yes. The environmentally hazardous substance mark is not required.

#### Additional information

TDG Classification	:	Product classified as per the following sections of the Transportation of Dangerous Goods Regulations: 2.40-2.42 (Class 8).
DOT Classification	:	<b><u>Reportable quantity</u></b> 1388.9 lbs / 630.56 kg [152.12 gal / 575.85 L]. Package sizes shipped in quantities less than the product reportable quantity are not subject to the RQ (reportable quantity) transportation requirements.
IMDG	:	The marine pollutant mark is not required when transported in sizes of $\leq 5$ L or $\leq 5$ kg.
ΙΑΤΑ	:	The environmentally hazardous substance mark may appear if required by other transportation regulations.
Special precautions for user	:	<b>Transport within user's premises:</b> always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.
Transport in bulk according to IMO instruments	:	Not available.

# Section 15. Regulatory information

#### Canadian lists Canadian NPRI

: None of the components are listed.

- **CEPA** Toxic substances
- : None of the components are listed.

#### International regulations

Chemical Weapon Convention List Schedules I, II & III Chemicals Not listed.

#### **Montreal Protocol**

Not listed.

Stockholm Convention on Persistent Organic Pollutants Not listed.

Rotterdam Convention on Prior Informed Consent (PIC) Not listed.

#### **UNECE Aarhus Protocol on POPs and Heavy Metals**

Not listed.

#### **Inventory list**

Canada	: All components are listed or exempted.
United States	: Not determined.
