

ESSENTIAL SOFT 'N' TUFF

LOTION SOAP

FOR INDUSTRIAL AND INSTITUTIONAL USE

DESCRIPTION

ESSENTIAL SOFT 'N' TUFF is a scented, emollient fortified lotion soap that produces a rich lather and leaves the skin feeling smooth and clean.

Suitable for all hand washing applications and yet is gentle enough to be used as a shower soap as well.

Can be used in any washroom or shower application found in schools, office buildings and industrial establishments.

ESSENTIAL SOFT 'N' TUFF is normally used undiluted in squeeze bottles, pump or crank type dispensers - it is not suitable for use with mild steel or iron pipe soap dispensers.

Can also be diluted 1:1 with water for use in latherizing soap dispensers.

APPLICATION

Hand Washing:

- Wet hands with warm water and apply hand soap.
- Rub hands together to produce a copious lather.
- Rinse well with clean, warm water. Dry hands thoroughly.

Showering:

- Rub a small amount onto wet skin and rub to work up lather.
- Rinse and dry thoroughly.

PROPERTIES

Form: Opaque liquid
